I'm walking along the darkest road  
Staring at the sky up above me  
I keep on hearing these voices in my head  
They wont leave me alone

I use to be the saviour  
The dancer of the night  
So i keep on fighting  
Until the end of the night

Whatever happened to tomorrow  
It seems so far  
I keep on hearing these voices in my head  
They wont leave me alone

I use to be the saviour  
The dancer of the night  
So i keep on fighting  
Until the end of the night  
Until the end of the night

I'm walking along the darkest road  
Staring at the sky up above  
These voices in my head, These voices in my head  
These voices in my head, wont leave me alone

I use to be the saviour  
The dancer of the night  
So i keep on fighting  
Until the end of the night  
Until the end of the night  
Until the end of the night  
Until the end of the night
