

A Threat For War "Interself"

Visit "[Interself](#)" on MotoLyrics.com

I wanted feel like it would last forever
I wanted to see you were true and doubt
But I wasted my time to be political
I shouldn't have done that hurt that person
So I got help alright ok a counciler

They told me to find my interself
Not the pain that I feel
My interself is in you, My interself is in you
Just find my self
Just find yourself
Again

Oh.. My life is torn apart just by one single move
Just by you saying hey here I am
Oh it's easy to complain about the problems here
To much to blame yourself for just stop... and think
o.....k.....

They told me to find my interself
Not the pain that I feel
My interself is in you, My interself is in you
Just find my self
Just find yourself
Again
