

A Transylvanian Funeral "We Shun The Light"

We shun the light...

Our place in hell...
Is upon this world...
We bring the storms...
Of unholy war...
Descending morning star...
Transmuting flesh to dust...
The gods of men unite...
And bend their knee in suicide...

Conjure, rapture...
... Eden... is forever burning...
Conjure, rapture...
... Paradise... forever burning...

World of shadows...
The fears of men take form...
Disease and death...
Mark of sin upon their heads...
Into the mouth of the beast...
Hope is lost...
The sky turns black...
And forever shall remain...

Conjure, rapture...
... Eden... is forever burning...
Conjure, rapture...
... Paradise... forever burning...
