I may not be pretty
I may not be clean
Scabby face
wasted away
But I'm a girl with dreams
I may not be Japanese
But I'll be your geisha on my
knees
And When my body's full of you I got a special find to
Introduce you to

I know what you did
I know who you are
What you did to them in your car and I'm here to get
revenge
And make things right
And I'm here to bring them justice
And you paid me to Here here all night

Oh you feel so nice
I'm up inside
Oh I'll take your life
Oh I love my knife

My friends gotta another friend
His name is rope he like to choke
Cut you up real slow
How deep do you think this blade can go?

Tell me if you've got something to hide
Do you think I can fit my whole fist inside?

Nice and warm and tight and wet
Think about my sisters don't forget

Oh you feel so nice
I'm up inside
Oh I'll take your life
Oh I love my knife

I love my knife
I love my knife

I love my knife

One pie
Two pie
Three pie
Four

I lay your body parts on the floor
And now you've come to your bitter end
And this will never happen again

One more kiss on your ripped up lips
And argon makes your body stiff

You served me once
I served you twice
I count to wrongs to make a right

Oh you feel so nice
I'm up inside
Oh I'll take your life
Oh I love my knife
Oh I love my knife
Oh I love my knife
Oh I love my knife
Oh I love my knife

I love my knife
I love my knife
I love my knife
