If it's all the same to you  
I'll stand here give my all one more time  
If it's all the same to you  
I'll be here until the last heart runs dry  
This time if anything  
Means more and less the same  
It's called DEVOTION  
This cost me everything  
There's nothing left to gain  
But still I PUSH ON  
If it's all the same to you

I'll be right over here just ignore me  
If it's all the same to you  
I'll watch what I helped plant keep growing  
What the fuck do you know about dedication  
If it's all the same to you  
I'll use every ounce of ammunition  
If it's all the same to you  
I'll die in the same place I've always stood in.
