Let me approach you with a scenario  
I am the poison run through your veins  
Let me hit you with another  
I am the voice that calls you back to the grave  
This is the dead tree whistling  
And the hum from a blood red sky  
Even if the clouds cry forever  
Today is an epic day to die  
This is my gift  
This is my curse  
This is denial  
Get back in the grave  
Let me suffer you with love  
As of yet still the greatest pain by far  
Let me be asphyxiation  
From the pain you hold so dear  
Kiss the lonesome stone that bears my name  
As you step to the graveline  
And admit once and for all  
That without me you cannot live this life  
I am gone forever  
I am souless flight  
And the greatest gift I could ask  
Is to die tonight  
Because you make me breathless  
And my lips turn blue  
And all I can offer in return  
Is to give my life to you  
You are apparition  
You are phantom eyes  
And I swear I can see right through you  
Haunted smile  
Eternal lovely(ness)  
As your heart expires  
This is the first in a long list  
Of last goodbyes.
