CHORUS

Before you fuck with me and judge me  
Yo all need to look in the mirror and look at yourselves  
You shouldn't insult me... you should be insulting  
yourselves  
Look at the mirror man and see what a traitor you are  
It's true that I didn't come to your birthday party  
But I didn't try to steal your girlfriend  
You did and that's not what I call a friend  
I thought I was in love with a girl  
You liked her... you used to tell her things 'bout me  
Stuff that's not true, you fuckin backstabber  
You double faced motherfucker,  
You wanted her, that's what you were after  
You should have won an oscar for best actor  
You think I forgot everything  
Fuck no, I haven't forgot a damn thing  
And in my mind you still are  
One day you come begging me  
Like I did  
Because what goes around comes around  
You're a loser and I'm not  
In the end I'm the one who should be crowned  
And you're the coward who should be drowned

CHORUS

Now I know the lyrics don't make sense with the hook  
But I don't give a fuck cause' the truth is coming out of  
my fuckin' mouth  
I no longer wanna diss you cause' you're a  
motherfuckin waste of my time  
I wanna spit some shit on things that have actually  
affected my life  
I was with a girl I really loved

Not the one you tried to steal  
I'm talkin' about the one whom really loved  
In a million years, for you she wouldn't feel  
With her, it was the real me  
I always wanted someone who I could be with and  
actually be myself and the real me  
I loved her so much that I couldn't imagine without her  
what my life would be  
I was ready to give that girl the world  
Who knew I'd be the one whose face becomes all dirt  
I guess nice guys finish last  
That's why we all keep treatin' girls like trash  
Cause' when we do they come runnin' at us like we're  
cash  
And when we do treat em' right, BOOOM CRASH!  
So I guess this world is pretty fucked up  
I really loved her, too bad I ran out of luck

CHORUS

Fuck all the friends who almost convinced me to leave  
'er  
Because in the end I was the one who left 'em  
When their in my situation and their in love they don't  
open their fucken mouth  
I hope that one day I'll sing this song to the world and  
sing it loud  
Cause' these pricks just wanna judge me but I want em'  
to leave me be  
In this world I just wanna be free  
I have my haters and you have your haters, everybody  
has haters  
You fuckin pricks almost put my dreams in tatters  
I just want to be with the one I love  
With my friends by my side, supporting my every move  
Instead of judging me and act like they've got  
something to prove  
I never left her, I always loved her and I have no regret  
Even though she left me, we're no longer together and  
even though I'm upset  
I always love her the same way I did a little while ago  
and I won't stop yet  
She's the best thing that ever happened to me and I'm  
proud of that  
Just leave me alone, I know what I want and I do what I  
want. Take that.
