It's not you, it's me
It's true you see
I always wanted it to be easy
Just to please me
I feel trapped when I'm not slapped
But I'm not sleazy

I got to got to go
I can't be with you tonight
Honey now you know
That it's black and white
Let's stay in touch
It's been fun
I'm in a rush
I gotta run
I'm just about getting out
On my own tonight
X2

It's running late you know

It's time to go
I found what I've been looking for
I can't rest, I want your best
(I'm not ashamed)
Let's start the game

I got to got to go
I can't be with you tonight
Honey now you know
That it's black and white
Let's stay in touch
It's been fun
I'm in a rush
I gotta run
I'm just about getting out
On my own tonight
X3
