Me I don't mind if you say no oh well hey oh I'm sure I'll
survive but you wont give up till I give in round a bend
I'm driven you never let me drive

When she tries to try things my way it's time for you to
give me my day, woah ohh ohh

Hey you should get of my case come the hell out my
face (ohh) your constant interruption, you and your
seduction (ohh) Now I need me some downtime but
you're always round mine (ohh) You always need to
leave me, to be like what you've seen inside some
glossy magazine

I've had the longest day at work and I want to put up my
feet, but as soon as I'm through the door you start
trying to turn up the heat. Baby chill, I'll give you some
loving later for real, but the way I'm feeling right now I
don't think that I'd have the will, to perform, oh don't
start kicking up a storm, it ain't my fault if under your
collar it started getting warm, I'm a hot minded male,
but in comparrison I pail in jail, this female would make
me a bitch without fail

Hey you should get of my case come the hell out my
face (ohh) your constant interruption, you and your
seduction (ohh) Now I need me some downtime but
you're always round mine (ohh) You always need to
leave me, to be like what you've seen inside some
