Oh, if I had a big ol' eraser  
I'd start from today  
And go back through life's pages  
And correct a lot of things  
Yeah, steppin' on toes with my foot in my mouth  
Yeah, thought I was the king  
But that was back  
Back when I knew everything

Yeah, a good hard head and no regrets  
Is what I thought made the man  
But now life's hard knocks is about all  
I've got  
And sorry's what I am  
Yeah, I had my old worn-out opinion  
Oh, and I sure made it plain  
But that was back  
Back when I knew everything

#### CHORUS

So whaddya say forgive and foget  
One more chance is all I need  
Yeah, this ol' loose cannon is a mighty  
Long shot  
This time I'm askin' please  
Yeah that's right, I was wrong  
Now all that I can say  
Is that was back  
Back when I knew everything

#### Bridge

A little too big for my britcher  
But life's a whittled me down to size  
I just hope there's enough of me left  
To apologize  
(Repeat chorus)

Oh, that was back  
Back when I knew everything
