Angel of mayhem has open his eyes
Unholy satanic wind ablaze the sky
Fucking humanity praying to god
Ancestor of serpent from dusk his arise

Darken the hope
Incense the massacre
Holy pain
Lance babies on altar

A whisper of Satan sounds in air
Lecher and murky the son of the men
Candles and bones over the grave
Black clothes Satan's whores and blood on the blade
Drinking the blood of goat and pray to the beast
Ancient demons fly with burning wings
The nightmare of past is now awake
Fucking humanity it's time for hell

Elevation of satanic lore
