Death from above
I see the vulture's wings
Awaiting the exit
Of my final breath
I won't surrender
I won't decay
My body rises
Unremorseful

Evil breathes me life
Life

Hell has come
To claim my soldier soul
I battle on and on
I will never die
I sacrifice my flesh
To uphold the seat of fire

Satan brings fire and force
Force

I can no longer inhale the air of the earth
I am a warrior of christian death
I can no longer inhale the air of the earth
I am a warrior of christian death

Poison
Controls my soul
Running through my blood
Into my skull
The venom of death
Nurtures me inside
Black and potent
Inside my veins

Evil breathes me life
Life
