Could this please be the last time  
Could this time be just for me?  
Make my hair put my make-up on  
Make me ready for my show

See the star see the star now  
Clap your hands clap your hands now  
Please don't cry I'll make you laugh again

On the rope up high here  
All these years such silence  
Where's my home where are my sons?  
All my life a funny wig

See the star see the star now  
Hail the clown hail the clown now  
Try and cry I can't make you laugh this time...
