This is shit
I don't even want to name it
What is this shit?
Why'd I step in it?

I don't want to verbalize it
I don't want to define it
I don't want to own it
I will not condone it

This is shit
A steaming pile
Of pungent shit
I stepped in it

I don't want to verbalize it
I don't want to define it
I don't want to own it
I will not condone it

This is shit
I don't even want to name it
What is this shit?
Why'd I step in it?
