Circle of fire
My baptism of trust
On the edge

Of the evil that men do
Balancing on razor blades
While I cut your veins and taste
Your fearful blood
Letting you die
Enjoy your sorrow

With my hatred full heart
Embrace my sacred crown
United we stand in madness...
United we stand in madness

You'll not wake from your
Your nightmare
Cause you're not asleep

Dragged in a night time dimension limited as
Infinite... timeless as... eternity
It's the intermediate mesmerizing mind frame
Between light and obscurity

Circle of fire
Embrace my trust
Burn your emotions
