Standing here  
Alone inside your bedroom  
You push me back and tie me down

Asked a question but  
There's no sound  
And all I love is underground

Don't know why  
I hate it so (I just don't know)  
Much of anything these days

Moonlight song plays  
On radio waves  
Your static heart just never stays

Can't make you look like me  
Can't make you smart like me

And that'ss just fine with me  
Can't make you be what I want you to be

Seeping through  
The Love Sounds from your bedroom  
I need you more than I can say

And I can say  
A whole lot of nothing  
No words this time, can make you stay

Can't make you look like me  
Can't make you smart like me  
And that's just fine with me  
Can't make you be what I want you to be
