Beneath the churning seas  
Hear the transcendental oration  
Searching for soul supremacy  
Through penance of isolation  
Virtuous serpent of hatred  
Master superior I seek  
The most obscure knowledge  
Through the walls it leaks  
Mind becomes void  
As the subterranean kingdom abhors me  
Occultist enclaves  
A union for infinity  
The burden is mine  
So too are strengthened abilities  
Possessor of mystic fury  
Scorching with unbound descent  
I await grimacing shadows  
Nuctemeron descent  
Discoidal fire  
War desire  
Transcendental purifier  
Infinite wisdom I have gained  
Releasing me from the mortal coil  
On the path of infallible transformation  
Supreme magus most high  
Nuctemeron awaits for my descent  
Underworld passage scriptures on the wall  
Caduces of ethereal majesty  
Depict the force  
The light of animation  
Sorcerer superior most high  
Escape the surface world in blackened pain  
Ritual now in session  
Elements in hand  
Demonic memorial  
Message carved in the land  
Prophetic  
Genius  
Personification of time's sand  
Infinite wisdom I have gained  
Rise for the brotherhood of the black sun  
Absolute in ineffable transformation

Supreme magus most high  
Occultist enclaves  
Scorching spirit and mind  
Depict the force  
The true light of animation  
Terminate  
The dominant glare of submission  
Purpose in desolation  
To witness collective shame  
Deathlike astral projection  
Burn the world again  
Nuctemeron descent
