"Black Angel"

Visit "[Black Angel](#)" on MotoLyrics.com

Over the land
An Angel sends it's wrath!
Black Angel growing from our hate!

Angel
Show your face and spread your wings
Reveal to us you inner sickness
And bring forth this Night of Madness!

To walk the Earth
And take control!

Through darkness and light
Unstoppable plague

Angel
Show your face and spread your wings
Reveal to us you inner sickness
And bring forth this Night of Madness!

Lead the way
We will follow
To destruction one more
Brothers in arms
To fight father and son!

Black Angel rising!
Growing from our hate

To walk the Earth
And take control!

Brothers in arms
To fight father and son!
