Walkin' on every street  
You stare at me, distrusting  
Thinkin' of your cliches  
You go past my eyes  
You lie down in your bedroom and sigh with relief

(The glance of the other)

Seeking the chance to live  
You crucify existance  
Thinkin', it burns your head  
Will you go through this night?  
You lie down in your bedroom and sigh with relief  
Look around you, there's nothing  
I beg you please

Speak to me  
Challenge me  
I'm scared like you, my brother  
Stay with me  
Look at me  
Take some courage and jump  
Cold (closed, dark)  
The glance of the other

Ruined your own beliefs  
You thought they'd last forever  
Thinkin' of your own kids  
You'll wake up in the night  
Listen to what they say  
Your arms were never open  
Fighting the one you hate  
You'll mirror in their eyes

You know that's part of the game

Speak to me  
Challenge me  
I'm scared like you, my brother  
Stay with me  
Look at me  
Take some courage and jump

Cold (closed, dark)  
The glance of the other
