I've been down after I saw him  
He was a portrait of a withering light  
Looking like it never shined before  
No smile to be caught  
Just that (unsatisfied face)  
He feels lonely in his complaint  
That's the only reason left to live  
Hand in hand, walking to his wane  
No smile to be caught  
Just that unsatisfied face

You accelerate  
Stubborn in your anger  
People living  
And you keep crashing bottles to you god like he's  
gonna hear  
What you say

Now you're growing constantly I'll  
You're a portrait of yourself and there's  
Nothing left around to brake  
Just stand far from me  
We've no time for you  
Look around you, be just calm  
There's no reason for another alibi  
New blood's coming out tonight  
Just dare to be part  
Of this  
We're walking away

You accelerate  
Stubborn in your anger  
People living  
And you keep crashing bottles to you god like he's  
gonna hear  
What you say
