How many times
Have I seen that look upon your face?
I need to know exactly
Where it is you go
Then I watch it wash all over you
Then I let it rush all over me
How many times
Will you come and go before you stay?
Crawl out of your hole
And tell me what it's like in there
Then I watch it wash all over you
Then I let it rush all over me
Then I watch it wash all over you
Then I let it rush all over me
Then I watch it wash all over you
Then I let it rush all over me
