Hey, Percy
The beauty hidden in the pain
I smile and I bleed
Body rain

Between the scenes
You should hold someone
Every piece is time
You've undone

Pretty boy
Everything lost and still a sound
Of mother's arms and soul
Can be found

Between the scenes
You should hold someone
Every piece is time
You've undone

Between the scenes
You should hold someone
Every piece is time
You've undone

Every piece is time
You've undone
