Everyone knows about it
We all got different
Stories to tell
It's just because
We've got it
Going on over
And over again
We've been sleeping
Through the day
We seem to have been
Badly informed
Salvation through hard lines
We all know it's about time
To get up, so wake up!
Now!

Everyone hears about it
We got to talk and overtalk
You just don't see
Any difference

Good riddance to him
And his Apprenticeship
I wanna see you get out
I wanna see this town
Go up in flames
Salvation through hard lines
We all know it's about time to
Get up, so wake up!
Now!

Let's be radical
In our not being radical
Let's be careless
Ignorant and then
We'll see
How they feel then
And respond to what
We'll have to say
