Crossing into other dimensions... harvesting the
wisdom of ages past
The endless astral oceans... churn the seas of the
abyss
The nightwinds are calling

Uncontrollable universal change and creation
The infernal storms hail and rain

Fires burn into the nightside, the calling of the dragon

Battles bathed in blood,... the ages of fire and steel
The smoke of burning bodies,... screams of the dying

Dragon of darkness rise,... set forth your chaos... !

She calls forth with a vengeance... her hate shall be
unleashed
From her throne to rise upon my altar of ritual,...
nocturnal sorcery!

The infernal dragon of chaos... shall breath the
cleansing fires!
Through chaos magic... the demons of the horned god
shall rise... rise!

Through my summonings... rise unto this circle
My pathworkings shall conjure the dragon of arcane
arts
Rise through... thy summonings with wings of fire
Open the gates unto thee
With fires burning I call forth to you now
Rise from the Infernal Kingdom, unveil the shadowed
secrets of ages past
With ancient wisdom,... cross the crystal lakes from the
beyond
Appear now before me.

Crossing into other dimensions... harvesting the
wisdom of ages past

She calls forth with a vengeance... her hate shall be

unleashed
From her throne to rise upon my altar of ritual,...
nocturnal sorcery!

The dragon of chaos commands the armies of
darkness
Upon the mountains of fire and ice
Ever watchful are the ancient spirits
As the wrath is unleashed upon mankind

The nightwinds are calling,... aeons unveiled black
shadowed skies

She calls forth with a vengeance... her hate shall be
unleashed
From her throne to rise upon my altar of ritual,...
nocturnal sorcery!

Dragon of darkness rise,... set forth your chaos... !
Battles bathed in blood, the ages of fire and steel
The smoke of burning bodies,... screams of the dying

The skies revel a gateway of the stars
Celestial script of ancient knowledge
The gateway unto the churning distant seas
The endless dynasty of the Abyssmal Nocturne

To set forth the winds... to release the powers of the
dragon
To raise the spirits... through fires of ritual
Through ceremonial sorcery... and path workings of the
ancient moon
I walk amongst the forests shadows... and taste the
cold... of the night side
