

Abyssmal Nocturne "The Wisdom Within"

Visit "[The Wisdom Within](#)" on MotoLyrics.com

In the black sky winds storm and rain
Through the ancient forest... I can see
Withering visions of mountains frozen in cold
Landscapes covered in snow... !
Through the black shadows can be seen
Raven wings sweep through the skies
Under the moonlite... the raven watches
Freezing winds... scream through the trees... !

The rites of fire... the realms of awareness... the
wisdom within... !

Through the forest shadows... I have seen
Raven wings sweep through the skies
Under the moonlite... the raven watches
The rites of ancient sorcery I now perform
Through powers of long ago
The spirits of ancients... rise up through
My summonings... and conjurations of fire... !

The rites of the night side have been summoned
Pathworkings of the ancient moon...
Chanting the summonings of ceremonial magic
With ritual fires burning into the night
Opening the gates... the fires that raise the spirits from
beyond... !

Through the blaze of the fire... winds carry the storms
of night
The night so black and cold... the stars so bright and
still
The wandering moon... so distant and powerful... and in
full... !

Raven in flight passing through the moonlite
Riding on starwinds... soaring into the night so black
Guarding the gates beyond... !

The unveiling of night... the essence of darkness
Through night side rites... and summonings of fire...
keep hold of the flame
Unleashing the spirits of darkness... through ritual

flames... and offerings
I call forth the winds of the Infernal Kingdom
Come unto this realm... release the dragon of chaos... !

Raven in flight passing through the moonlite
Ridding on starwinds... soaring into the night so black
Guarding the gates beyond... !
