

Ac4 "Assassination"

Step into - Now I need to get it right
Cause this time - The biggest fight I have to fight
As I grow - The more I feel I have to be
To go on - And fight the war inside of me

Assassination, assassination, assassination of my
head
Assassination, assassination, assassination - dead
Assassination, assassination, assassination of my
head

Made the choice - Now there is no turning back
Cause it's me - I'm the one under attack
Gotta smash - The comfort zone that I made
These four walls - That are supposed to keep me safe
