Not a nostalgia hit parade
Not a human jukebox not today
The reaction the symptoms say more about you
And about what you opted to do

Cause this is it!

Not a celebration of times passed
Not an attempt at getting the cash

The reason the rhyme you'll never get
For you a phase for me life and death

Am I stuck or did I stay true
What did you expect me to do
The same records and similar ideas
The same practice space we've had for years
