Foretold men's death
And drowned in tears of angels
That saw the hate we have
And cried when sinners laugh

In these oceans of time
My body sinks beneath
From the surface of the water
To float alone in the depths

Dark clouds and drifting nightmares
Flood into my mouth
And throughout my deformed body
I discover the strangest route

See Neptune on his throne
And his minions all around
The singing of the sirens
So seductive a lovely song

I once knew mortal love
And what it could give
But pain I felt
That now seems dim
