Mars help us through these times, surging forces
oppress us
Eating away our thoughts and minds, thought thieves
torment us
Now I plead for help from sky, time has come to fight
No more oppression, voice cries aggression

Oh me, why me, oh me, goddess

Hacking and smashing we're winning with help
The battle wears on, rebellion wins the day
Lives lost are lives saved, the law that keeps us going
Final capture, a surrender of defeat

Oh me, why me, oh me, goddess

Now I rule with power, they don't know of my prayers
Won the war for them, the truth hidden of my hour
Hand of debt sweeps goddesses pound of flesh
A sacrifice to thee but the person is me

Oh me, oh no, oh no, goddess
