Warum hinterlÃ¤sst das Wort "Patriotismus" gerade in  
unserem Land  
einen Ã¼belriechenden Nachgeschmack?

"My friend" come to the end,  
fuck off Iâ€™m sick of your words  
and the way you shout loud  
"Iâ€™m proud, Iâ€™m proud"  
proud to be a German and proud to be white  
but your eyes arenâ€™t blue,  
what a shame, oh look at you  
alone a piece of shit, but strong in a crowd  
than you loose your coverdice  
and another black girl cries

God damn your kind

For our history from the past  
until today there is the black  
and the red is for the blood  
of the millions that was shed  
for the exploitation of the poor  
there is the gold on our flag  
is it that what are you proud of,  
you patriotic pack

You wear the Belgium colours,  
you thought it is the German flag  
oh, I know what do you hide  
behind your national pride  
it is stupidity  
but it's too dangerous to ignore  
your welcome friend is silence,  
this time we'll offer resistance  
you poison this country  
with shit that you've been told  
that your race is the best, better than the rest

God damn your kind

For our history from the past

until today there is the black  
and the red is for the blood  
of the millions that was shed  
for the exploitation of the poor  
there is the gold on our flag  
is it that what are you proud of,  
you patriotic pack
