### "Tears"

I met a child in Belfast and Derry  
the last of a tribe on the American prairie  
down under I saw some old native sons,  
a Kurdish girl faced by German guns

I saw the tears...

And I saw the tears of the last 100 years  
of wars and oppression.  
Of wars and oppression  
broken dreams, human fears  
in their eyes, in their eyes

Immigrant eyes on a German police station  
in this land it's a normal situation  
escaping from a civil war  
to be mistreated by the German law

I saw the tears...
