"Do What I Can Do"

I got up
I got dressed
Said I'll do
My best
Said I'm up
To the task
Guess that's all
You can ask

But the question in my mind
Am I living my life right

I do what I can do what I can
Not everything in life
Goes according to my plan
But you can look me in the eye

And know that I will try
I tell you that it's true
I do what I can do

Well I thought
That by now
I'd have it all
Figured out
But that's love
And that's life
Every day's
A surprise

I'm not perfect by all means
I'm just searching for that dream
