You've got a light that surrounds you
A peaceful way about you
Takes the fear out of
I want to put my arms around you
I'm so glad I found you
How'd you end up in my life
And oh, I suppose
It was destiny at
Or someone had a perfect plan to fill
But as I watch you while you sleep
City's so very clear to me
Until the day the planets all stand still
My love, I will
I love the way your eyes light up
When you're talking to someone you love
And you've never been afraid to let it show
And I can't imagine anything
As good as when you say my name
And you tell me that you'll never let me go
My Love I Will
