And so I wept and raged and cried  
And came through on the other side  
I thought what is this that dissolves to dust  
What remains of the two of us  
You have left an empty space  
A memory that's hard to trace  
A momentary flash of light  
In Time  
And all across the universe  
Everything expanding  
At once a blessing and a curse  
A beginning and an ending  
I don't know the mystery  
Of why we're here or how we came to be  
I think we're measured by our heart  
If we've been kind and done our part  
Will anyone remember me?  
I guess my friends, my family  
We're intertwined - their lives and mine  
In Time  
And all around the world tonight  
People are embracing  
Cause it's all about the love you give  
And you don't want to waste it  
Time
