Flesh

The fragile flesh

Smile, betray and pain

Lips in the trap of jaws

I tear neglected alliance

Rouge of lips bare teeth

As gift of false light

Once again

Another day

I ignore the heat of flesh

Reflection of betrayer

False as a gift

Mind as a cage

My thoughts flow away

The carnal soul

The bright wounds

Illusion caused hunger

Desires of mankind

The addiction to flesh

The carnal ambiguity

It seems so bright

False

The sweet false

Two-edged sword unleashed

Holy laws broken now

I fuck the lewd insinuations

The neophyte obeys you

Unworthy to breathe

Hungry for your sight
