Charge!
Annihilate!
It's time of fight
Inhuman scream
Snow is still white
It won't
Be long
Release
The blood
Another attack
Will break me
I'll close my eyes
And return to the sand
For the pain
They will blame
The tribe
Of Cain
Horrible thoughts
Move the man
Incredible for human sight
The soldier took another life
Beyond the line of humanity
We moving into insanity
The sunlight gleams upon the weapon
Rising hands, scared faces
See the field as day is done
See the dead on the ground
Can you hear them call!
