I think I love you baby
You drive me crazy
I think I love you baby
You drive me crazy
I think I love you baby
You drive me crazy

What do you want from me?
Huh What do you want from me?
What do you want from me?
Huh what do you want from me (What do you want!)

Talk to me
I think I love you baby
You drive me crazy
Talk to me

What do you want from me?
Huh What do you want from me?

I think I love you baby
You drive me crazy
I think I love you baby
You drive me crazy
I think I love you baby
You drive me crazy
