"Angel Horned"

Sons of the lost
Kingdom of fire
Turning
To dust
Launching it higher
Fighting for those who will rise up within
The
Sign of the sun is wisdom and hate

Disordered nations
Embraced the lights
Of hell
The legions of the lords
Serving evil forces
Enslaved and purified

Destroying those who failed
To see their power
In their worst
Nightmares

Fallen angel horned

Pentacle is burning
Devouring all the
Blind
The king is rising
To take his revenge
Enslaved and purified

Destroying those who failed
To see their power
