Ancient lord of the  
Sun  
Who rules the sands of time  
Witnessed the glorious era of Akhenaten

Behind his wisdom  
The beauty has risen  
Upon the lands  
With the reign of  
Nefertiti

Beyond her eyes  
Was born the power  
Within her heart  
The  
Virtue of Massra  
The perfect one arised

Her gaze is like the wind  
Burst of  
Eternal life  
A vision  
Haunting the dreams of thousands  
Her skin is like the  
Sand  
Shinning as day but cold as night  
She is all men's worse sin

Dark  
Mother of all civilizations  
Embrace my soul and let me die in your heart
