Inside our senses
Inner perception
Blinding our minds to unmask reality
Source of damnation
Religious poison
Destiny of mankind
That turned our future to dust

Gods of the past
I invoke the secrets unveiled
Show me your sacred, strong evil inside
I will sacrifice my soul to the oriental wind

I saw the past in the gleam of the light
Shadows of the gods that brought knowledge to our
kind
Insanity brought to our time
Instead of greatness and might

Ancestral signs in our mind
Unconscious souls, we are lost in the dust
We are lost

I saw the past in the gleam of the light
Shadows of the gods that brought knowledge to our
kind
Falling from the stars
Launching fire in the sky

I drink the blood of the almighty one
I feel the power of the angel inside
Praying to be the chosen one
Who will bring light to my kind
