Gather here, mortals, (and) listen to this tale,
Of ancient folk and noble gods, and scream a mighty
hail!

To this tale, listen well, for it concerns every man,
Woman and child; the tale of the Volsung clan!

A saga of old written in (the) sky
Calling to man. We heed the call,
(We) follow the stars, Odin rides forth!
Ancient saga tell us again
All (of) your wisdom. We shall listen
And spread your tales to all we can.

In the time of the ancients, of gods and of men,
Our greatest tales were told and now we hear them
again.
So gather here my friends, the worthy and the true,
For in your search for wisdom, wisdom may find you.

Volsung Saga!

A saga of old written in (the) sky
Calling to man. We heed the call,
(We) follow the stars, Odin rides forth!
Ancient saga tell us again
All (of) your wisdom. We shall listen
And spread your tales to all we can.

Gather here, mortals, (and) listen to this tale,
Of ancient folk and noble gods, and scream a mighty
hail!
To this tale, listen well, for it concerns every man,
Woman and child; the tale of the Volsung Clan!
