Scar face in the corner, he's looking for a fight  
It sure looks good in galveston tonight  
And I'm right in the middle of the riff raff and the  
rough necks are wasting time  
And the girl with the dirty hair says she'll be mine  
Scarface used to tell me "gone are the fishing days"  
The cajuns fished the red fish all away  
I got that dirty haired woman says she'll be mine till the  
end  
Till the cajuns stop dancing and the red fish come back  
again

Chorus

Solo

If I had some sense I'd be five years gone  
Everyone I used to know they just moved on  
Me and mother ocean we stare into the night  
The boats are tied and there's not a soul in sight  
I thought to myself I'd have done it all by now  
I got stuck in galveston some how  
She's twisting and she's churning, she won't leave me  
alone  
But the girl with the dirty hair said she'd drive me home  
Chorus
