When we hurt  
When we ache  
When we feel a sting of pain  
When were at a loss for words  
But we know there's something wrong  
How can we do anything  
How can we do anything  
How can we do anything  
To Please You Lord

You are my God  
And You never change  
You are my Rock  
And will always remain  
When others fall down  
And ground falls away  
You will stay the same

When we Don't  
Feel that strong  
When we feel we can't go on

When were frozen with fear  
It's Your voice we long to hear  
How can we do anything  
How can we do anything  
How can we do anything  
To please You Lord

You are my God  
And You never change  
You are my Rock  
And will always remain  
When others fall down  
And ground falls away  
You will stay the same

Through the ages  
Your love hasn't changed  
Through the ages We will bless Your name
