Chorus:

I wanna take you with me wherever
you want shawty, I want you beside me
I wanna take you with me wherever
you want shawty, I want you beside me

I swear that no one can love you like I do
That's a limit I can't resist my feelings are too strong
Your presence is the air I breathe
Your presence is all what I need
As you see I beg you to come, believe me honey
I'm lonely, I'm upset, I live and fight for you till death
Feel my words

Chorus:

I wanna take you with me wherever
you want shawty, I want you beside me
I wanna take you with me wherever
you want shawty, I want you beside me

My sweetheart I need you
Without I'm sad
With you I'm glad
You're my life
My future wife
You make me fly
Like an angel in the sky, oh oh
As you see I beg you to come
Girl I'll fight for you till death

2 x Chorus:

I wanna take you with me wherever
you want shawty, I want you beside me
I wanna take you with me wherever
you want shawty, I want you beside me
