One-a, Two-a, Three-a, Four-a

I am California... yeah?  
Ice tea in my hair  
Drugs fall out of diaper bags  
As midwesterners stare  
I am California  
Long walks on the 5  
Truck stops and the symphony  
And I'll be here when I die

I heart California... I love California  
I heart California  
I heart California... I love California  
I heart California

I am California... yeah?  
And you're a Leicestershire  
I'm citrus and summertime  
And you're haggis and cider  
I am California... yeah?  
The warm friendlier skies  
Fake tits and the symphony  
And I'll be here when I die

I heart California... I love California  
I heart California  
I heart California... I love California  
I heart California  
I heart California... I love California  
I heart California  
I heart California... I love California
