I'm slowing down  
As we go on  
And I'm slowing down  
As we go on  
We can hold on forever  
If we just hold on together  
I'm slowing down  
I'm slowing down  
I'm slowing down  
I'm slowing down

Don't look to the sun  
You know it will only burn away your eyes  
And don't look to me  
You know I will only melt away your disguise  
If we stop moving we're gonna fall  
Right out of the sky  
If we stop moving we're gonna fall  
Right out of the sky

I'm slowing down, I'm slowing down  
I'm slowing down, I'm slowing down  
I'm slowing down, I'm slowing down  
I'm slowing down, I'm slowing d-d-d-d-d-d-d
