I thought I'd about had it with love
I thought I'd about had every kind you can have a little
bit of
I thought I'd been low as high as a girl can get
Oh, I thought I'd about had it with love but I hadn't had
your love yet

Touch me and I look down at the sky I'm so high
Leave me and I start to feel so low I can't even cry
Tell me, is that heaven I see in your eyes
Play a card of your daydreams honey, see how far I fall

I thought I'd about had it with love
I thought I'd about had every kind you can have a little
bit of
I thought I'd been low as high as a girl can get
Oh, I thought I'd about had it with love but I hadn't had
your love yet

I've had all the heartaches I'll ever need to know
I gave up on the game of love a million tears ago
But you go me believing maybe this is something more
Something so much better than I've ever felt before

I thought I'd about had it with love
I thought I'd about had every kind you can have a little
bit of
I thought I'd been low and as high as a girl can get
Oh, I thought I'd about had it with love but I hadn't had
your love yet
