[Chorus]

Two kings walk through memphis
One had a dream, one had a song
But each man brought a message of love
That lives on and on and on
And though that mississippi river
Can hardly hold our tears
The legacy they left us with
Would treasure through the years
Remembering 2 kings

Well they came out of 2 below
Shook the whole world up
With his jet black hair and his blue suede shoes
One look and it was love
And on that dark day at graceland
When it went to joe and his mother
We knew we've lost our rock and roll king
And there'll never be another

[Chorus]

Two kings walk through memphis
One had a dream, one had a song
Though they're walking with the angels now
The memories live on
And though that mississippi river
Still flows with our tears
The legacy they left us with
Would treasure through the years
Talking about two kings

He walked the streets of memphis
With a bible in his hands
And the kind that let a dream of
Some couldn't understand
And with no more than a single shot
His work on earth was done
But he showed us the way to the promise land
And we must keep marching on

There are thoughts that fly away

Set the world to light from dark
Songs and dreams are just like ...
When those tears from all above
They still ... of love

Oh, he took us to the mountain
Whoa, he sang away our pain
2 kings gone and yet the song and dream remain

Two kings walk through memphis
Two kings touched our souls
One man had a vision
And one man came to rock and roll

And that mississippi river
Still flows with our tears
Now I'm just gonna carry on
Celebrate the years
Respect the two kings, two kings.
