Clinic despair
Burning flesh and venomous blades
Blood and sperm
Forced to create a deep void of darkness
Blind as a cancer
Negation of life through a solar murder
Red blood fire
The ruins will turn into rotten sand
You got no choice
Suffer, murder
Murder
Murder
Useless victims of time
Devoured by god's creation
As a symbol of nothing
Human nature failure
We created our main enemy
We created our pain and death
We created our destroyer
I deny the Creator
And he smell of his creation
I got no choice
Suffer, murder
Murder
Murder
The last spin
The circle is closed
Erase god through total self-destruction
Erase god through never ending muss-murder
