What drives these confessions what kind of reward?
The need to be noticed, condemned or adored
Revealing your feelings and innermost thoughts
In a song damn song (2x)

Purity comes with its own complications
Trawling for truths a high risk occupation
You can end up a wreck on prescribed medication
Song damn song

You pour it all out
But its burning like acid
Scarring the hearts of the ones who once trusted you
Was better off left in that box in your attic
Song damn song

The dark stuff will take on a life of its own
Turn like a monster and tear up your home life
And youLL be to blame for the seed thats been sown
In a song damn song

Your sad little masterpiece hurts you to strum it
It ruins your life
When the world got to hum it
Youre forced to repeat it until you become it
Song damn song

It feels like a pit but youre told its the summit
Of song damn song (3x)
